## Overview

Franklin Templeton Investment Management Limited United Kingdom Bucharest Branch, as Sole Administrator and Fund Manager of Fondul Proprietatea presents the preliminary results of the Fund for the year ended 31 December 2014, with unaudited net profit of RON 1,012.9 million, an increase of RON 330.7 million compared to the net profit for 2013 of RON 682.2 million. The main factor behind the higher profits during 2014 was the net accounting gain on disposal of equity investments.

Total shareholders' equity was RON 9,339.0 million as at 31 December 2014, a decrease of 14.2% compared to the value of RON 10,885.0 million as at 31 December 2013.

The Fund reported a Net Asset Value ("NAV") of RON 13,236.7 million as at 31 December 2014 and a Net Asset Value per Share ("NAV/share") of RON 1.2125 (a positive NAV/share total return of 1.39% compared to 31 December 2013). The NAV is prepared in accordance with the local rules issued by the capital market regulator.

In 2014, the Bucharest Stock Exchange outperformed the largest markets in Central Europe in both local currency and EUR terms, as shown in the table below.

<b>% change in 2014</b>	<b>in local currency</b>	<b>in EUR</b>
<b>BET-XT (Romania)</b>	<b>6.32%</b>	6.28%
PX (Czech Republic)	-4.27%	-5.38%
WIG20 (Poland)	-3.54%	-6.56%
ATX (Austria)	-15.18%	-15.18%
BUX (Hungary)	-10.40%	-15.66%

The discount of the share price to NAV was 26.1% as at 31 December 2014. In 2014, the discount ranged between 21.7% and 37.9%.

### 2014 Profit Allocation Proposal

The Fund's 2014 unaudited net profit was RON 1,012,898,265. The Fund is obliged to make transfers of at least 5% of the Fund's profit to the legal reserves until these reserves reach a value equivalent to 20% of the value of the issued share capital of the Fund. Following the 2014 transfer of RON 51,476,313, the value of these reserves is RON 243,735,507 (being 2.1% of the issued share capital).

The Fund Manager proposes to keep the remaining RON 961,421,952 within unallocated retained earnings, due to the fact that, according to the official interpretation of the FSA on the definition of "net asset value" for the Fund, dividend distributions cannot be made to shareholders at the present time, because the Fund's shareholders' equity calculated in accordance with Romanian Accounting Regulations of RON 9,339.0 million is lower than the share capital of the Fund of RON 11,815.3 million.

The Fund Manager has already recommended, and the shareholders have approved (on 21 January 2015), a cash distribution of RON 0.05 per share via the decrease of the share capital through the reduction of the nominal value of the Fund's shares. Based on our current understanding of Romanian tax law, no Romanian tax will arise for the Fund or its shareholders on this distribution.

The decrease of the share capital is subject to the endorsement from the FSA.

In addition, the Fund Manager will seek to return further value to shareholders by continuing to buy-back shares.

Please see the *Significant Events* section for the official interpretation of the FSA on the definition of the "net asset value" for the Fund, and for the updated Fund's annual cash distribution policy.

#### Notes:

- Prepared on the basis of Romanian Accounting Regulations
- Prepared on the basis of local rules issued by the capital market regulator
- Calculated with dividend/ capital return reinvested, where applicable
- The difference in change (%) between total NAV and NAV per share is accounted for by the change in the number of treasury shares (treasury shares acquired through buy-backs are excluded from the number of shares used in the computation of NAV per share) and in paid capital during the period

The NAV (calculated according to local rules issued by the capital market regulator) is higher than the value of Shareholders' equity (calculated according to Romanian Accounting Regulations), principally due to the different valuation methodologies applied to financial assets, as illustrated in the following table:

	Local Capital Market Regulations*	Romanian Accounting Regulations
Listed securities	Valued at closing market prices (regulated markets)	Valued at cost less adjustments for impairment
	Valued at reference prices (Rasdaq market)**	
Unlisted or illiquid listed securities	Valued as per latest issued annual financial statements (proportionally with the stake held) or using fair valuation methodologies	Valued at cost less adjustments for impairment

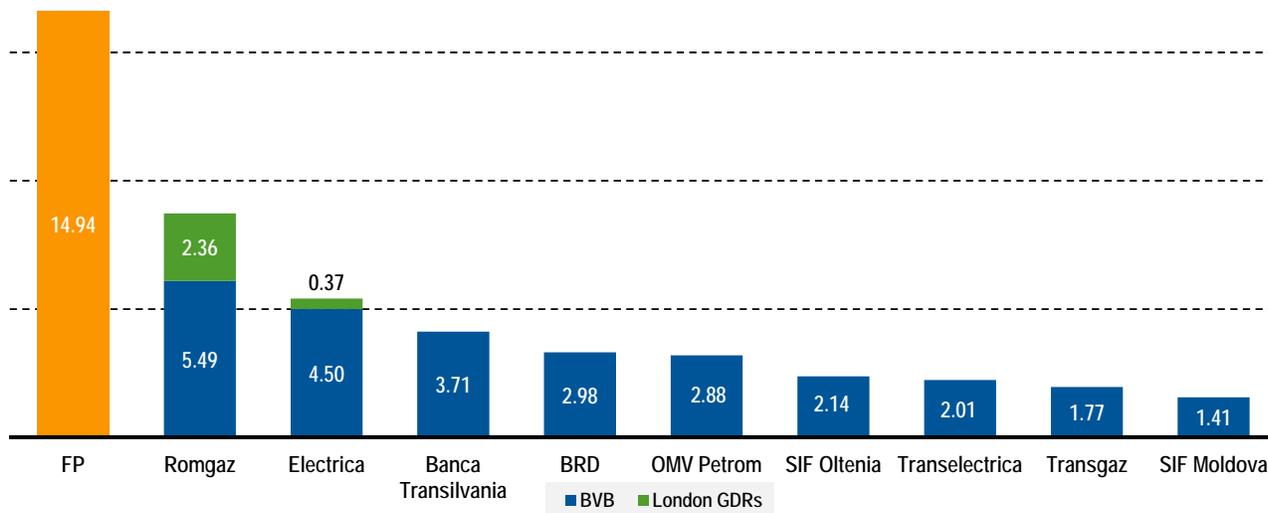

\* Details on the valuation methods used for each company are presented in the Annex 3 to this report; with effect from 31 December 2012, the shares of companies under insolvency or reorganisation procedure are valued either at zero or at a value assessed by an independent authorised valuer, using valuation methods in accordance with International Valuation Standards (fair value principles). The shares of companies under judicial liquidation procedure, or any other liquidation procedures, as well as of companies under temporary or final suspension of operations, must be valued at zero until the respective procedures are completed.

\*\* Reference price is considered the closing price for the shares listed on section RGBS of Rasdaq and the average price for the securities listed on sections XMBS of Rasdaq and UNLS.

## Investor Relations Update

In 2014, in our efforts to increase the visibility and profile of the Fund, as well as of the local capital market, and Romania to a broader international institutional investor base, we participated in 13 global and regional emerging and frontier market conferences in London, New York, Warsaw, Zürs, Stegersbach, and Prague, where we met with over 170 investment analysts and portfolio managers interested in finding out more details about the Fund and its equity story, and to receive updates on the Fund, its corporate actions, and its main portfolio holdings.

We also organised 11 road-shows in the most important financial centres in Europe (London), the United States (New York) and the Middle-East (Dubai). During the road-shows, the Fund's management team had individual

and group meetings with representatives from over 100 institutional investment firms, both current shareholders and potential investors.

In February, in collaboration with the Bucharest Stock Exchange and Raiffeisen Bank, we organised the “Romania Investor Days” event in New York, the first such event focused on Romania and the local capital market. More than 60 representatives from international institutional investors (with assets under management of over EUR 700 billion) participated in the event. The first day featured presentations from the Romanian Prime Minister’s Advisor, the Deputy Governor of the Romanian National Bank, the Privatisation Director of the Energy Department from the Ministry of Economy, the Secretary of State within the Ministry of Economy, the Secretary of State within the Ministry of Public Finance, the President of the Romanian Fiscal Council, the CEO and the President of the Bucharest Stock Exchange, the Vice-President of Raiffeisen Treasury and Capital Markets, and the Fund Manager of Fondul Proprietatea. During the second day, over 100 individual and group meetings were organised between the institutional investors and the 11 Romanian listed and unlisted companies participating in the conference.

On 31 March, as part of our ongoing efforts to ensure a broader understanding of the Fund and the underlying holdings, we held the third edition of the Analysts Day event, addressed to analysts covering the Fund. Also, as part of our efforts to promote the Fund, the Romanian local market, and the country in general, we continued our series of events focused on analysts and institutional investors, and in June and November 2014, we organised the 6<sup>th</sup> and the 7<sup>th</sup> editions of the Fondul Proprietatea Analyst and Investor Days. Over 170 institutional investors (with EUR 900 billion in assets under management), analysts covering the Fund, and corporates, participated on both occasions in the three days events. The participants had the opportunity to visit the nuclear reactors of Nuclearelectrica SA, in Cernavoda; the operations of the Port of Constanta; the OMV Petrom Refinery and Power-Plant in Ploiesti; and Salrom’s salt mine in Slanic Prahova. Also, the events featured presentations from the U.S. Chargé d’Affaires and the U.K. Ambassador, the Minister of Energy, the International Monetary Fund (“IMF”), the World Bank, the National Bank of Romania, the Fiscal Council, the Financial Supervisory Authority, the Romanian Senate, the Bucharest Stock Exchange, the Privatization Office within the Energy Department, A.T. Kearney, Renaissance Capital, and the Fund, as well as the management of the top portfolio companies: OMV Petrom SA, Romgaz SA, Nuclearelectrica SA, CE Oltenia SA, Transelectrica SA, Hidroelectrică SA, and Posta Romana SA. Over 200 individual and group meetings were organised during these events, between institutional investors and the management of some of the largest listed and unlisted companies in Romania.

In November, we held the first Retail Investor Day event, dedicated to the Fund’s retail shareholders, in order to update them on the ongoing and future corporate actions envisaged by the Fund Manager, and to answer any queries.

Communication between the Fund Manager and investors remains our top priority as we aim to ensure that investors are informed about the latest developments and obtain their feedback as we continue to focus on maximising shareholder value. Therefore, during the year, we held four conference calls with analysts and investors related to the Fund’s 2013 preliminary financial results, and to the 2014 quarterly financial results. We also facilitated at the end of February a conference call between investors and analysts and the judicial administrator of Hidroelectrică, following the Court of Appeal’s decision to reopen the insolvency procedure of Hidroelectrică.

In addition, the Fund’s management team had more than 60 individual meetings with current and prospective investors, as well as over 80 conference calls with institutional investors interested in the Fund and its underlying portfolio holdings.

### Secondary Listing Update

On 26 November, the Romanian Financial Supervisory Authority did not approve the Depository Interests (“DI”) Regulation needed to complete the Fund’s listing in London in December 2014, according to the mandate given by the Fund’s shareholders in April 2014. The Fund Manager considers that the Fund’s listing on the London Stock Exchange (“LSE”) would be in the best long-term interest of the Fund and its shareholders as it should broaden the foreign institutional investor base not currently active in Romania, it should increase the research coverage from international brokers, and the incremental demand for the Fund’s shares generated by the listing on the LSE should contribute to the narrowing of the discount to NAV at which the Fund’s shares currently trade.

The Fund’s listing on the LSE could not be completed in December 2014 through the use of DIs, because the FSA did not approve the Regulation regarding the listing on foreign European Union Markets through DIs because it did not meet the majority of required votes. However, the recent regulatory changes now allow for the Fund to be

listed on the LSE via the use of Global Depositary Receipts (“GDR”). The Fund Manager remains committed to working with the FSA to approve the DI regulation, but ultimately the final decision and the timing of that is solely under the control of the FSA. In December 2014, Elliott Associates proposed a resolution for the General Shareholders Meeting on 21 January 2015 for a new mandate to list the Fund in London until 10 July 2015, which shareholders have approved. The Fund Manager will work to achieve the Fund’s listing on the LSE as soon as possible through GDRs; however, if the DI regulation is approved by the FSA in the meantime, the Fund Manager will pursue this route to complete the LSE listing.

## Buy-back Programmes

### The Third Buy-back Programme

The third buy-back programme, approved by shareholders on 22 November 2013, started in March 2014. The total value of the buy-back programme was RON 205,460,540 (excluding brokerage fees and other acquisition related costs), and the average price was approximately RON 0.8125 per share. The shareholders approved the cancellation of the shares repurchased in the third buy-back programme at the 23 September 2014 General Shareholders’ Meeting (“GSM”). ### The Fourth Buy-back Programme

The fourth buy-back programme refers to the acquisition of a maximum number of 990,855,616 shares. The price range is a minimum of RON 0.2 per share and a maximum of RON 2.0 per share. The buy-back programme started on 1 October 2014 and can be executed until 27 November 2015. The shares repurchased during the fourth buy-back programme will be cancelled. On 20 October, the Fund Manager announced its intention to accelerate the buy-back programme via a Public Tender Offer to acquire 750 million shares, and selected Raiffeisen Bank to provide brokerage services for the Tender Offer. The price offered was RON 1.11 per share and the subscription period was 3 November – 2 December. On 4 December, the Fund Manager announced the results of the Tender Offer: 10,109,789,738 total shares subscribed (an oversubscription rate of 13.48, and an allocation ratio of 0.0741855191). As at 31 December 2014, the total number of shares repurchased during the fourth buy-back programme was 904.5 million, representing 91.3% of the total programme, at an average share price of RON 1.0743 per share.

### The Fifth Buy-back Programme

On 19 November 2014 the Fund’s shareholders approved the fifth buy-back programme that refers to the acquisition of a maximum number of (i) 227,572,250 shares or (ii) 10% of the subscribed share capital at the relevant time, whichever is the lesser, starting with the date when the share capital decrease approved through EGM Resolution on 23 September 2014 (regarding the cancellation of the shares purchased by the Fund during the third buy-back programme) is effective until August 2016. The buy-back shall be performed at a price that cannot be lower than RON 0.2 per share nor higher than RON 2 per share. The buy-back transaction can only be applied for fully paid shares. The shares purchased will be cancelled. The implementation of this buy-back programme will be subject to the availability of the necessary cash.

## Share Cancellation

### The share cancellation after the First Buy-back Programme

On 24 February 2014, the Fund Manager received from the FSA the decision regarding the approval of the decrease of the Fund’s share capital through the cancellation of the 240.3 million shares repurchased during the first buy-back programme. The decision was effective on the same day.

### **The share cancellation after the Second Buy-back Programme**

On 28 April 2014, shareholders voted for the decrease of the share capital through the cancellation of 1.1 billion shares repurchased by the Fund during the second buy-back programme. On 25 September 2014, the FSA issued Decision no. 164 through which it endorsed the change of the constitutive act reflecting the decrease of the Fund's subscribed share capital through the cancellation of 1.1 billion shares repurchased during the second buy-back programme. The decision was effective on 26 September 2014.

### **The share cancellation after the Third Buy-back Programme**

During the Extraordinary General Shareholders' Meeting ("EGM") held on 23 September 2014, shareholders approved the decrease of the share capital through the cancellation of 252,858,056 shares repurchased by the Fund during the third buy-back programme. The share capital decrease is effective beginning with 27 January 2015. For further details on the cancellation of shares acquired during the third buy-back programme, please see the *Subsequent Events* section.

### **Distributions to Shareholders**

On 4 February 2014, the Fund's shareholders approved by EGM Resolution no. 2/2014 the reduction of the Fund's share capital by reducing the nominal value of the shares from RON 1 to RON 0.95 and the return of the RON 0.05 per share to the shareholders registered at the registration date (30 April 2014), proportionally with their participation to the Fund's paid share capital.

On 25 June 2014 the FSA endorsed the above-mentioned share capital reduction, and thus, in accordance with the provisions of the Shareholders' Resolution no. 2/2014, the payment started on 25 July 2014.

By 31 December 2014, shareholders had collected over 98% of the total distribution of RON 601.3 million.

### **Official interpretation of the Financial Supervisory Authority on the definition of "net asset value" for the Fund, meaning that dividend distributions cannot be made to shareholders at the present time**

On 30 April 2014, the Fund filed with the FSA a request for obtaining an official interpretation regarding the scope of article 17 of CNVM Regulation 4/2010, as amended, providing for the methodology of computation of the "net asset value" of the Fund, in connection with article 69 of the Companies Law. The need for this request became apparent after receiving certain letters from public authorities that were inconsistent with previous letters from public authorities on aspects of potential relevance for this topic.

In response to the request, the Fund received on 19 June 2014 the FSA Endorsement no. 71/19.06.2014 stating, in essence, that the "net asset value" determined in accordance with Regulation no. 4/2010 is for regulatory reporting and investors' information purposes only. The FSA confirmed that the Endorsement has effect prospectively from the date of its publication.

Based on our review, the FSA's official interpretation has the direct effect that the ability to distribute dividends should be established based on the concept of "total shareholders' equity" calculated in accordance with CNVM Regulation no. 4/2011.

For the prior year, as at 31 December 2013, the "total shareholders' equity" in the financial statements (prepared in accordance with Regulation 4/2011) was RON 10,885.0 million, which was below the share capital of the Fund of RON 13,778.4 million. Therefore, according to the FSA interpretation, the Fund Manager could neither propose nor make any dividend distributions to the Fund's shareholders. The situation remains the same as at 31 December 2014, because the "total shareholders' equity" in the financial statements (prepared in accordance with Regulation 4/2011) was RON 9,339.0 million, which is below the share capital of the Fund of RON 11,815.3 million.

According to Regulation 4/2011, the financial assets (i.e. the Fund's portfolio holdings), both listed and unlisted (which are the main asset category of Fondul Proprietatea), can only be valued in the financial statements of the Fund at the historical cost (i.e. cost/ initial value less cumulated adjustments for impairment), even if their fair values would be higher than this cost/ initial value. This has a negative impact on the "total shareholders' equity" computed based on Regulation 4/2011.

Please find below a table outlining the main differences in the valuation of the Fund's financial assets in accordance with CNVM Regulation no. 4/2010 and CNVM Regulation no. 4/2011.

	Regulation no. 4/2011 (Romanian Accounting Regulations, "total shareholders' equity")	Regulation no. 4/2010 ("Net asset value" computation for regulatory reporting)
Listed shares	Valued at cost less adjustments for impairment	Valued at closing market prices (regulated markets) Valued at reference prices (Rasdaq market)*
Unlisted or illiquid listed shares	Valued at cost less adjustments for impairment	Valued as per latest issued annual financial statements (proportionally with the stake held) or using fair valuation methodologies
Total shareholders' equity / net asset value as at 31 Dec 2013	RON 10,885,061,292	RON 15,013,742,081.74
Total shareholders' equity / net asset value as at 31 Dec 2014	RON 9,339,030,996	RON 13,236,700,614.13

\* Reference price is considered the closing price for the shares listed on section RGBS of Rasdaq and the average price for the securities listed on sections XMBS of Rasdaq and UNLS.

The Fund Manager analysed the interpretation and amended the Fund's policy for annual cash distributions to shareholders.

### Annual Cash Distribution Policy

Following the official interpretation received from the FSA on computation methodology for the "net asset value" to be used by the Fund in the application of Article 69 of Companies Law no. 31/1990, related to the distribution of profits to shareholders, which in essence limits the Fund's current ability to distribute dividends, the Fund Manager remains committed to returning cash to shareholders on an annual basis (subject to applicable law and necessary approvals) and has amended the Fund's annual cash distribution policy as follows:

*"In the absence of exceptional market conditions or circumstances, and subject to any restrictions under Romanian legal or tax regulations, the Fund Manager intends to recommend to shareholders a cash distribution related to each financial year equivalent to 100% of the sum of (i) the Fund's dividend income from portfolio companies, (ii) plus interest on cash balances, (iii) less expenses and taxation and (iv) less compulsory allocations to reserves according to the regulations in force, in each case for that year. The cash distributions would be paid to shareholders either in the form of a return of capital (by decreasing the nominal value per share) or in the form of dividends, in each case subject to any restrictions under Romanian legal or tax regulations. In the case of dividend distributions (where permitted by applicable law), the distributable amount will be assessed based on audited financial information. In the case of a return of capital, the distributable amount will be based on a best estimate according to the latest management accounts at the time of proposing the resolution".*

The annual cash distribution policy does not limit additional cash returns and share buy-backs that can be recommended by the Fund Manager separately, subject to available cash and depending on the discount level, according to the Investment Policy Statement.

- The provisions related to the State's special treatment for its contributions to the increase of the Fund's share capital are repealed.
- The Fund's receivable against World Trade Center București S.A. is transferred back to the Ministry of Public Finance.

### **Litigation regarding the shares in Conpet SA**

On 19 April 2007, the Authority for State Assets Recovery (AVAS) filed an ownership claim with the 5<sup>th</sup> District First Instance Court against the Fund, the Central Depository, the FSA and Conpet SA, requesting the Court to rule upon the ownership rights of the claimant over a number of 524,366 shares in Conpet SA's share capital and to impose on the other defendants the obligation to register accordingly the shares in the shareholders' registry.

Beginning with 2007 there were several rounds of hearings and court decisions and several reorganisations, as the plaintiff in this case is in present the Department of Energy as a successor of AVAS.

On 19 March 2014 Bucharest Court ruled in favour of the Fund and rejected the request of Department of Energy. Against this decision of the Bucharest Tribunal, the Department of Energy file an appeal and on 30 January 2015 the Bucharest Court of Appeal ruled in favour of the Department of Energy obliging the Fund to transfer a number of 524,366 shares in Conpet SA's share capital to Department of Energy. The Fund can file the final appeal against the decision of Bucharest Court of Appeal within 15 days after the full decision is received from the Court.

This litigation was in progress as at 31 December 2014. This indicates that these conditions existed before the end of Fund's reporting period and meet the requirements of an adjusting event after the end of the reporting period. As a result, at 31 December 2014, the Fund recorded impairment adjustment for the holding in Conpet SA.

# Analysis of the Activity of the Fund

## Analysis of the Portfolio of the Fund

### Net Asset Valuation

The key performance indicator of the Fund is its Net Asset Value (“NAV”). The Fund is required to publish a monthly net asset value per share in accordance with local rules issued by the capital market regulator, no later than 15 calendar days after the reporting month end.

All NAV reports are published on the Fund’s website at [www.fondulproprietatea.ro](http://www.fondulproprietatea.ro), together with the share price and discount information.

### NAV Methodology

CNVM Regulation no 4/2010 as subsequently amended, allows the NAV calculation based on best international practice suitable for a listed closed-end fund.

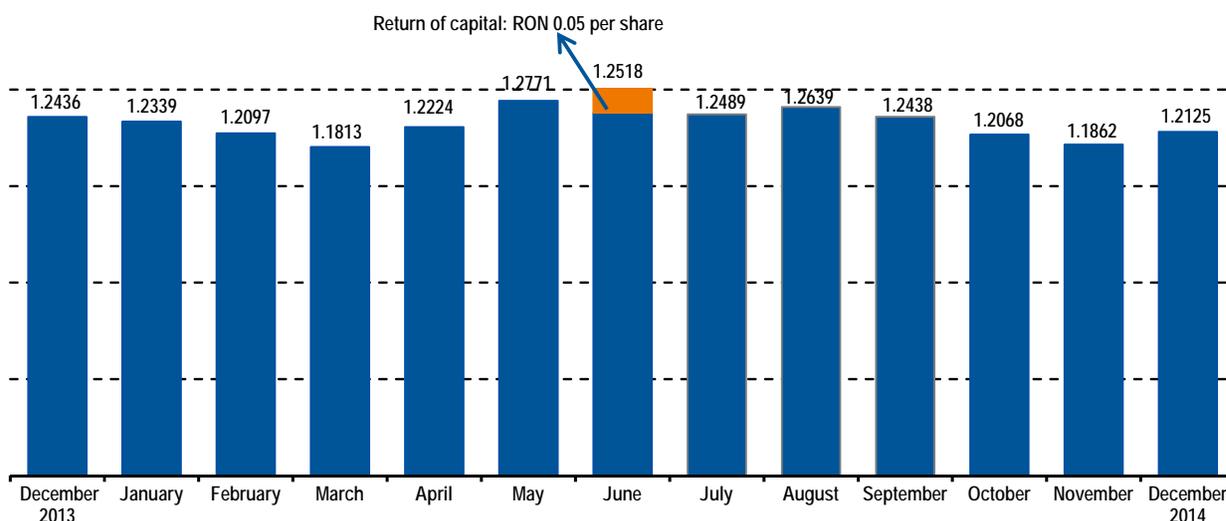

Listed securities are valued at closing market prices - if listed on regulated markets, or reference prices - if listed on Rasdaq (the reference price is considered to be the closing price for the securities listed on section RGBS of Rasdaq and the average price for the securities listed on section XMBS of Rasdaq and on UNLS). Illiquid or unlisted securities are valued using either the value of shareholders’ equity, as per the latest available annual financial statements, proportionally with the stake held, or according to international valuation standards which permit fair valuation.

Starting December 2012, the shares in the companies going through insolvency or a reorganisation procedure are valued either at zero, or at the value provided by an independent valuer, using valuation methods in accordance with international valuation standards which permit fair valuation (previously such holdings were valued at zero, until the procedure was finalised). The shares in the companies under a judicial liquidation procedure, or any other liquidation procedures, as well as in the companies under temporary or final suspension of operation, are valued at zero until the procedure is finalised.

Beginning December 2012, the treasury shares acquired through buy-backs are excluded from the number of shares used in NAV per share computation.

The following chart shows information on the monthly published NAVs per share for the period 31 December 2013 to 31 December 2014:

### NAV/share (RON/share)

Source: FTIML, based on NAV reports submitted to FSA.

The **orange section** within the June 2014 NAV represents the value per share of the return of capital approved by shareholders in February 2014, which was recorded in June, following the FSA's endorsement of this share capital decrease, resulting in a corresponding reduction in the NAV.

During the **first quarter of 2014** the NAV per share decreased by 5% mainly due to the negative impact of the decrease of the share prices of certain listed holdings, principally OMV Petrom (impact on the Fund's NAV of RON 460.5 million or RON 0.0382 per share), and Romgaz (impact on the Fund's NAV of RON 68.8 million or RON 0.0057 per share), and due to the update of the independent valuation of the holding in Hidroelectrica in February 2014, after the Bucharest Court of Appeal decided to place Hidroelectrica back under the reorganisation procedure (the impact was a decrease of RON 134.2 million or RON 0.0111 per share).

In the **second quarter of 2014**, the NAV per share had a moderate upward trend, due mainly to the positive share price evolution of Fund's listed holdings, principally OMV Petrom (impact on the Fund's NAV of RON 591.7 million or RON 0.0499 per share as at 30 June versus 31 March 2014), and to the third buy-back programme carried out by the Fund during this period.

The holding in Electrica Furnizare SA (previously valued at zero) was independently valued in May 2014. The valuation was performed by KPMG Romania, in accordance with International Valuation Standards. The impact was an increase of RON 88 million of the total NAV. Five unlisted holdings were independently valued in June 2014 (for Complexul Energetic Oltenia SA this was a valuation update, while for the other holdings, the previous valuation was based on the shareholders' equity from the most recent annual financial statements, according to FSA regulations in force). The valuation was performed by KPMG Romania, in accordance with International Valuation Standards. The overall impact as at 30 June 2014, compared to the previous month NAV, was a decrease of RON 123.1 million or RON 0.0101 per share.

The Fund's NAV per share had a slight downward trend in the **third quarter of 2014**, mainly due to the negative impact of the decrease of the share price of certain portfolio companies, principally OMV Petrom (impact of RON 125.9 million or RON 0.0106 per share), while the increase of the share price of other portfolio companies, mainly Romgaz (impact of RON 50.1 million or RON 0.0042 per share) had a positive influence. During the third quarter of 2014, there was no change in the valuation of the Fund's unlisted holdings.

In the **last quarter of 2014**, the NAV per share had a slight downward trend which was mainly due to the decrease of OMV Petrom share price (impact of RON 670.3 million or RON 0.0614 per share as at 31 December versus 30 September 2014), while the fourth buy-back programme (including the tender offer of 750 million shares) carried out by the Fund during this quarter had a positive impact.

At the end of the year, 20 unlisted holdings, representing 99.5% of the total unlisted portfolio, were independently valued (including valuation updates for 17 of the holdings). The valuations were performed by KPMG Romania and Ernst & Young Service, in accordance with International Valuation Standards. The overall impact was an increase of RON 241.7 million or RON 0.0205 per share, as compared to the previous valuation (28 November 2014 NAV).

In January 2014, Primcom SA performed a capital return to its shareholders following the decrease of its share capital by reducing the nominal value of the shares from RON 2.5 to RON 0.1.

In 2014, the Fund received in compensation for the receivable related to the unpaid share capital:

- 26,904 shares in CE Oltenia SA (having a nominal value of RON 269,040), following a share capital increase by the company in April 2014.
- 116,457 shares in Hidroelectrica SA with a total nominal value of RON 1,164,570, following share capital increases of Hidroelectrica SA in April, September and October 2014, equivalent to the value of land for which Hidroelectrica SA obtained title, recorded as contributions in kind by the Romanian state, represented by the Ministry of Public Finance, to the share capital of the Fund.

In May 2014, the Fund received 35,438 bonus shares from Administratia Porturilor Dunarii Maritime SA, following a share capital increase through the incorporation of reserves. At the same time, there was also a cash share capital increase in which Fondul Proprietatea did not participate and decided to challenge it in Court. After these changes in the company's share capital, the new total number of shares held by the Fund in Administratia Porturilor Dunarii Maritime SA increased to 56,675 shares (from 21,237 shares held previously), while the percentage holding decreased to 7.7% (from a 20% holding). The Fund continues to seek a Court annulment of the share capital increase operation.

In July 2014, Banca Transilvania SA completed the registration of a share capital increase (from incorporation of reserves and earnings) with the Central Depository and the number of 10,347,302 bonus shares received by the Fund in May 2014, were reflected as part of its portfolio (previously these shares were reflected in the other current assets category in the Fund's NAV report).

In October 2014, Carbid Fox SA was erased from the Trade Register, at the end of the bankruptcy procedure.

### Mergers

In November 2014, the General Shareholders Meetings of E.ON Gaz Distributie SA and E.ON Moldova Distributie SA approved the merger of the companies, with E.ON Gaz Distributie SA as the absorbing company and E.ON Moldova Distributie SA as the absorbed company. Following the merger, E.ON Gaz Distributie SA changed its name to E.ON Distributie Romania SA and E.ON Moldova Distributie SA was erased from the Trade Register. The registration of the new company was completed by the Trade Registry on 31 December 2014. After the merger, the Fund holds 18.34% in E.ON Distributie Romania SA.

### Energy Sector Updates

The Romanian National Energy Regulatory Authority ("ANRE") modified the tariff setting methodology for the electricity distribution service (Order 112 / 29.10.2014), with the most significant changes being the possibility given to the regulator to revise the regulatory rate of return ("RRR") starting from the second year of the ongoing five year regulatory period (2014 - 2018). Subsequently, ANRE effectively reduced the level of the RRR (before tax and expressed in real terms) to 7.70% from the previous 8.52% level (Order 146/ 10.12.2014). The ANRE decision was challenged in Administrative court by Fondul Proprietatea and the distribution companies.

## Energy Tariff Changes

The proposed timetable for gradual elimination of the regulated electricity prices for non-household consumers and for household consumers is according with the table below:

Starting date	Non-household consumers – % acquisition from the competitive market	Household consumers – % acquisition from the competitive market
01.01.2013	30	-
01.04.2013	45	-
01.07.2013	65	10
01.09.2013	85	10

01.01.2016	100	60
01.07.2016	100	70
01.01.2017	100	80
01.07.2017	-	90
31.12.2017	-	100

## Gas Tariff Changes

The implementation of the calendar for gradual elimination of regulated gas prices started on 1 February 2013. Following the implementation of the 6<sup>th</sup> increase on 1 April 2014, prices have increased in line with the calendar to 89.4 RON/MWh for non-household consumers and to 51.8 RON/MWh for household consumers.

On 24 June 2014, the Government Emergency Ordinance no. 35/2014, which modifies Law no. 123/2012 regarding Electricity and Natural Gas, entered into force. The changes were done in order to introduce the obligation for natural gas producers to sell a certain percentage of their production on the regulated market, as per the decisions of ANRE, the Romanian energy market regulator. Following these changes, the remaining price increases for the year in the liberalisation calendar were no longer implemented. The Government subsequently decided to postpone the further liberalisation of gas prices for household consumers until at least June 2015 while the liberalisation process for non-household consumers was considered finalised by the Romanian Government given that local prices have reached a level close to the European prices. Starting 1 January 2015 ANRE no longer sets reference prices for non-household consumers. Gas prices for household consumers have been frozen at RON 53.3/MWh until 30 June 2015. ANRE will have to publish a new calendar for the gas price liberalization for household consumers starting 1 July 2015 until 1 July 2021.

## Hidroelectrica Insolvency

On 25 February 2014 the Bucharest Court of Appeal took the following decisions:

- Cancelled the initial decision of the Bucharest Court whereby the judicial reorganisation procedure of Hidroelectrica was closed for procedural reasons. As a result, the case will be sent back to the syndic judge for a retrial. As a consequence, the company was placed back under the reorganisation procedure and the former judicial administrator was reinstated with immediate effect.
- Cancelled and sent back to the syndic judge for retrial several other cases related to the force majeure clause in 2011 and the table of creditors.

### Balance Sheet

Intangible assets	0.8	0.8
Financial assets	10,490.6	9,075.2

Provisions	29.3	15.1
<b>Shareholders' equity</b>	<b>10,885.0</b>	<b>9,339.0</b>

As at 31 December 2014, **intangible assets** included the value of the licenses and the implementation costs of the Fund's accounting and reporting software, net of accumulated amortisation.

**Financial assets** include the Fund's listed and unlisted equity investments. According to Romanian Accounting Regulations, both listed and unlisted equity investments are valued at cost (or their initial value) less adjustments for impairment.

For listed investments, the impairment adjustment records any adverse difference between cost and closing price (an impairment adjustment is booked if closing price is lower than cost). For unlisted or illiquid listed equity investments, the impairment test compares the cost to the Fund's share of shareholders' equity as per the portfolio companies' latest available financial statements or using values assessed by independent valuers, and any adverse result is booked as impairment. In performing the impairment test, the financial information from the most recent financial statements of the companies is corroborated with the most recent publicly available qualitative and quantitative information regarding the assets.

During 2014, the value of financial assets decreased by RON 1,415.4 million mainly due to the disposals of the entire holdings in Transelectrica (total impact RON 156.2 million), Raiffeisen Bank (total impact RON 77.8 million), and Erste Group Bank (total impact RON 45.1 million), and also part of the holding in Romgaz SA (total impact RON 138.8 million), combined with the increase of the impairment adjustments for the holdings in OMV Petrom (RON 664.9 million), Nuclearelectrica (RON 94.6 million) and CE Oltenia (RON 213.2 million).

The decrease in **current assets** of RON 134.6 million was mainly due to the funding of the third and fourth buy-back programme (RON 1,188.7 million) and by the payment of the return of capital to shareholders that started on 25 July 2014 (RON 589.9 million), net of the proceeds from the disposals of portfolio holdings, mainly Romgaz, Transelectrica, Conpet, Raiffeisen Bank and Erste Group Bank (RON 1,080.2 million) and dividends collected from portfolio companies during the year (RON 682.1 million).

The provisions decreased by RON 14.2 million, due to the reversal of the provisions for taxes (related to the reserves for bonus shares received from portfolio companies that increased their share capital through incorporation of reserves in previous years), as a result of a change to the Romanian Fiscal Code. With effect from 1 January 2014, no income tax was applied to the sale of equity instruments held in Romanian entities or entities resident in a country with which Romania has a tax treaty, where the holding represent at least 10% of the share capital and has been held for an uninterrupted period of at least 1 year.

**Revenues from financial assets** represent dividend income earned from the Fund's portfolio companies, mainly OMV Petrom RON 331.4 million, Romgaz RON 148.5 million and GDF Suez Energy Romania RON 33.6 million.

**Interest income** arose from deposits held with banks and from short-term government securities. The lower level of interest income during 2014 compared to 2013 is a reflection of both, lower level of interest rates and a lower average level of interest bearing assets during 2014.

**Revenues from disposal of financial assets** represent the proceeds from the sales of portfolio holdings (mainly Transelectrica, Romgaz, Conpet, Raiffeisen Bank, Erste Bank in 2014), while the **expenses from disposal of financial assets** represent the cost of the investments disposed of.

**Commissions and fees** mainly include the FSA's 0.1% per annum fee, calculated on the basis of the Fund's NAV, amounting to RON 14.6 million in 2014 (2013: RON 15.1 million), and the depositary bank's fees of RON 1.8 million (2013: RON 1.8 million). During 2014 commissions and fees included also the intermediaries fees related to the disposals of equity investments, in the amount of RON 11.8 million (2013: RON 7.7 million) and FSA and BVB fees related to the disposals, in amount of RON 2.0 million (2013: RON 1.3 million).

The **income tax expense** arising in 2014 is tax due, among others, from the cancellation of treasury shares bought back by the Fund in the first buy-back programme and the second buy-back programme, and from the decrease in the nominal value of the treasury shares held by the Fund on the date the return of capital was recorded, which were treated for tax purposes as taxable revenues. In 2014 the main non-taxable revenues constituted of dividends received from portfolio companies and proceeds from the sale of securities of portfolio companies subject to the above mentioned holding exemption. On the other hand, the main non-tax-deductible expenses constituted of expenses related to the disposal of portfolio securities covered with the holding exemption.

**Other expenses from current activity** can be analysed as follows:

RON million	2013	2014
	Audited	Unaudited
FTIML investment management and administration fees	45.3	56.4
Remunerations and similar expenses	0.9	1.2
Stamp duties for litigations	0.1	0.1
Other expenses	14.5	32.4
<b>Other expenses from current activity</b>	<b>60.8</b>	<b>90.1</b>

During 2014, other expenses from current activity increased by RON 29.3 million, mainly due to the rise in FTIML investment management and administration fees (due to the increase of the Fund's share price upon which the fees are based and due to the change in the base fee rate effective from September 2014, when the new IMA entered into force).

Other expenses included mainly litigation assistance and legal advisory expenses (including expenses related to portfolio transactions), other expenses related to transactions (including withholding tax expenses, where applicable), investor relations expenses, expenses related to the valuation of the unlisted holdings, other advisory fees (for the Fund or Board of Nominees members), expenses related to secondary listing and sponsorship expenses (the full amount of sponsorship expenses was deducted, according to the provisions of Romanian Fiscal Code, from the corporate tax expense for 2014). The increase of this category of expenses was mainly due to the higher value of transactions and advisory related costs.

**Note:**

Starting from 2014, the Fund applies the *Amendments to IFRS 10, IFRS 12 and IAS 27 (Investment Entities)* (the “Amendments”), being classified as an investment entity. As a result, the Fund changed its accounting policies for investments in subsidiaries and associates, classifying and measuring them at fair value through profit or loss.

In this respect, the Fund retrospectively adjusted both the period that immediately precedes the date of initial application (year ended 31 December 2013) and the Statement of financial position at the beginning of the immediately preceding period (1 January 2013) for the difference between the previous carrying value and the current fair value of the equity investments for which the change in accounting policies mentioned before applies. The cumulative amount of fair value adjustments previously recognised in equity (other comprehensive income) for these equity investments classified as subsidiaries and associates, was transferred to retained earnings at the beginning of the immediately preceding period (1 January 2013).

All the other equity investments of the Fund remained classified as available for sale financial assets and recorded at the same values as reported in previous annual IFRS financial statements. For 31 December 2013 and 1 January 2013, where available, equity investments were measured at their fair values, otherwise, they were valued at cost less impairment adjustments.

During 2014, the Fund issued interim IFRS financial statements for informative purposes. In these informative financial statements all Fund’s equity investments were classified and measured at fair value through profit or loss, the comparative periods being restated accordingly.

Following the changes in local accounting legislation according to the Instruction no. 2/2014 issued by FSA in August 2014, starting 1 January 2015, IFRS as adopted by EU, will be the official accounting regulations, for both accounting and fiscal basis.

In this context, the classification and measurement of the equity investments of the Fund was reconsidered for the preparation of the annual financial statements, and, maintaining the initial classification and valuation of other equity investments (other than subsidiaries and associates), as reported in the previously published annual IFRS financial statements, was considered the most appropriate option.
