## DESCRIPTION OF NAV BASIS

Net Asset Value is calculated according to regulations currently applying to Fondul Proprietatea in Romania (CNVM Regulation no. 4/2010, modified by Disposal of Measures no. 17/25.11.2010). Listed investments are valued using the last available closing price where there is trading activity in the last 30 days. Where there is no trading activity in the 30 day period for listed investments, the unlisted valuation approach applies. Investments in unlisted companies are valued using either shareholders equity value per latest financial statements (proportionally with the stake held) or by using valuation methods in accordance with International Valuation Standards (fair value principles). Any holding going through an insolvency or liquidation procedure is valued at zero until the procedure is finalised.
