14.3 Companies not admitted to trading	34

**Notes:**

**1) Buybacks via Global Depository Receipts (“GDRs”):** In September 2015, Fondul Proprietatea started the sixth buyback programme which is carried out by the Fund both through buying ordinary shares from Bucharest Stock Exchange and through buying GDRs from London Stock Exchange.

From accounting point of view the GDRs bought back by the Fund are accounted for exactly as the own ordinary shares bought back, as a deduction in shareholders' equity (in an account with debit balance in shareholders' equity, being reflected in caption “9.4 Reserves” above). This is the result of the application of substance over form principle, due to the fact that buyback via GDRs is only a technical/legal form of the transaction, the substance of the transaction being that the Fund buys back its own shares, giving the same rights to both holders of Fund's ordinary shares and of Fund's GDRs to take part in the buyback programmes carried out by the Fund.

According to CNVM Regulation no. 4/2010, as subsequently amended (art. 18(3)), in the computation of the NAV per share, the number of own shares bought back by the Fund, held at the NAV reporting date, should be deducted from the number of shares issued and paid-up.

Due to the fact that in substance the Fund's GDRs are similar with the ordinary shares to which they correspond, in the computation of the number of shares used in the calculation of NAV per share, the equivalent number of shares corresponding to the GDRs bought back and held by the Fund as at NAV reporting date are also deducted (together with the number of the ordinary own shares bought back and held).

2) **Official accounting regulations:** On 28 December 2015, FSA published the Norms no. 39/2015 approving the IFRS as statutory accounting basis (official accounting regulations) starting with the annual financial statements for the year ended 31 December 2015 and starting with the NAV report as at 29 January 2016, the accounting records under IFRS were used for the computation of NAV for non-portfolio items.

Legend:

\* = Represents the number of shares related to the paid-up subscribed share capital (according to provisions of Law 247/2005, Title VII, Art. 9<sup>2</sup>, alin. 5 "Subscribed unpaid shares are not taken into account for the computation of net asset value per share for Fondul Proprietatea") excluding (a) the Fund's own shares bought back (Treasury shares), according to provisions of CNVM Regulation no. 4/2010, as subsequently amended, and (b) the equivalent number of shares corresponding to the GDRs bought back and held (please see Note (1) above).

\*\* = Include also the value of holdings admitted to trading on AeRo market (alternative regulated market)

\*\*\* = Include the number of companies admitted to trading on AeRo market (alternative trading system)
