FONDUL PROPRIETATEA

Annex – Changes in the valuation methods used for the computation of the NAV of Fondul Proprietatea as at 31 May 2014

For the computation of the NAV as at 31 May 2014 for Fondul Proprietatea S.A., Franklin Templeton Investment Management changed the valuation methods used for the investments in the companies presented below:

1) Alcom SA and Aeroportul International Timisoara – Traian Vuia SA

Following the decisions of General Shareholders Meetings of these companies to approve the financial statements for the financial year ended 31 December 2013 and do not distribute dividends, the valuation method for these companies has been changed from Shareholders' equity (as of 31 December 2012) adjusted with dividends declared per share to Shareholders' equity (as of 31 December 2013) per share. The total impact of this change of valuation method on the Fund's NAV was a decrease of Lei 4,553,392.36.

2) IOR SA and Severnav SA

Franklin Templeton Investment Management elected to value the investments in these companies at the last available trading price (respectively IOR SA: Lei 0.33/share and Severnav SA: Lei 2.50/share), as it was considered to reflect better the fair value of these investments than shareholders' equity per share (respectively IOR SA: Lei 0.1293 /share and Severnav SA: Lei 18.8976 /share), even though the shares of these companies have not been traded in the last 30 days. This change of valuation method did not have any impact on the Fund's NAV.

3) Electrica Furnizare SA

For this company, the valuation method was changed from Fair value/share (zero value) to Fair value (value as per independent valuer's report)/ share as it was considered that this method reflects better the fair value of this investment in the Fund's NAV since the company received in May the unpaid receivables for the energy consummed by their biggest client. The total impact of this change of valuation method on the Fund's NAV was an increase of 88,049,949.59 Lei.
