Overview

Franklin Templeton Investment Management Limited United Kingdom Bucharest Branch, as Sole Administrator and Fund Manager of Fondul Proprietatea presents the results of the Fund for the quarter ended 30 September 2011, with unaudited net losses of RON 7.9 million (for the quarter ended 30 September 2010 there was a net profit of RON 60.1 million) and total shareholders' equity of RON 11,328.4 million (30 June 2011: RON 12,789.5 million). For the 9-month period ended 30 September 2011 the net profit was RON 535.3 million (for the 9-month period ended 30 September 2010 there was a net profit of RON 270.6 million).

The main contributing factors to the loss in the third quarter of 2011 are the lack of the dividend income (as the dividend stream from portfolio companies followed the normal pattern for Romanian companies, where dividends are usually declared in the second quarter of the year) and a lower level of interest income compared to 2010. The positive result in the third quarter of 2010 was due to exceptional dividends distributed by two of the Fund's portfolio companies in that period and higher interest income levels.

The Fund reported a Romanian National Securities Commission ("CNVM") net asset value ("NAV") as at 30 September 2011 of RON 14,616.2 million (a decrease of 9.9% since 30 June 2011) or RON 1.0902 per share (a decrease of 7.2% since 30 June 2011).

The downward trend of Fund's NAV performance in the third quarter of 2011 was correlated with the overall conditions on the Bucharest Stock Exchange, which was reflected in the valuation of the listed part of the Fund's portfolio.

The discount of share price to NAV was 59.6% as at 30 September 2011. In the third quarter of 2011, the discount has ranged between 54.4% and 62.80%.

The NAV (calculated according to CNVM Regulations) is higher than the Shareholders' Equity value (calculated according to Romanian Accounting Regulations) principally due to the different valuation methodologies applied to financial assets, as illustrated in the following table:

	CNVM Regulations	Romanian Accounting Regulations
Listed securities	Valued at closing quoted market prices	Valued at cost less adjustments for impairment
Unlisted or illiquid listed securities	Valued as per latest issued financial statements of the security (proportionally with the stake held) or using fair valuation techniques	Valued at cost less adjustments for impairment

Investor Relations Update

The Fund Manager continued its efforts to raise the Fund's profile among a broader international institutional investor base and ensure a deeper understanding of the Fund's portfolio companies. In addition to the semi-annual results conference call for local and international analysts and institutional investors, the Fund Manager has organized a U.S. road-show and participated in global and regional emerging market conferences to further educate investors about the Fund. Additionally, in order to increase the transparency at the portfolio level, the Fund published the annual reports, financial statements, and auditor's reports for its top 20 portfolio companies, which account for almost 90% of the NAV. Enhancing communication between the Fund Manager and investors remains one of the key objectives in order to inform investors about the latest developments and obtain their feedback in order to maximize shareholder value going forward.

Secondary Listing

In July 2011, following a six-month analysis and discussions with eight leading investment banks, the Fund Manager announced its recommendation to pursue a secondary listing of the Fund on the Warsaw Stock Exchange.

The Warsaw Stock Exchange has developed into a major venue for the Central and Eastern European region's largest companies, offering a diverse institutional investor base as well as strong demand from local investors, especially Polish pension funds. With a market capitalisation of almost USD 2 billion, the Fund would be in the top 15 companies among the firms listed on the main market of the WSE, thus giving it a very high visibility and the possibility of being included in the WIG index, which would in turn attract local and international benchmark investors. In some other markets, indices exclude non-local issuers.

The secondary listing would ideally be combined with an offering of 10% of the existing shares in order to facilitate stronger investor interest in the Fund. Through the secondary listing, the Fund would benefit from an increased visibility among international institutional investors and it will facilitate easy access into the Fund for a broader investor base, which is not currently investing in Romania. Investors would also benefit from additional insight and analysis of the portfolio companies through increased research coverage from a larger number of international brokers. Therefore, the secondary listing would be a major step forward in the development of the Fund as well as a major milestone in the development of the Romanian capital market and is in the best long-term interest of all shareholders.

During the third quarter, the Fund Manager has started the process to select the investment bank/consortium to sponsor the secondary listing on the Warsaw Stock Exchange and has met with the market regulators and central depositories in Romania and Poland. The Fund Manager has considered various methods to accumulate the shares for the offering, including acquiring shares by tender offer, by buy-back, or by other means. The feasibility of some of these methods is dependent on interpretation of some aspects of Romanian law and regulation which have not been widely examined in practice. Therefore, supportive guidance from CNVM is considered important to allow the Fund Manager to finalise the plans for structuring the offering on the Warsaw Stock Exchange and to then conclude the selection process of the investment bank to implement those plans. From CNVM's initial feedback on the theoretical examples and the possible interpretations presented by the Fund Manager, it appears there are more potential obstacles than first envisaged. The discussions are ongoing and the Fund Manager remains committed to working with CNVM to reach a constructive outcome which will lead to further development of the Romanian market. After completion of the selection process, the approval of the Board of Nominees and shareholders will be necessary to move forward with the transaction. Trading on the WSE is targeted for the first half of 2012, upon successful completion of the regulatory requirements and the placement.

Buy-Back Programme Update

The buy-back programme initiated in the first half was completed by the end of the third quarter. Per the 31 December 2010 financial statements, the Fund had RON 120.3 million in available reserves that could be used for the share buy-backs. During the programme, 240.3 million shares equivalent to 1.79% of the Fund were bought back at an average price of RON 0.4994 for a total amount of RON 120.3 million (shares already settled as at 30 September 2011: 225.9 million).

New Depository Bank

On 18 August 2011, ING Bank N.V. Amsterdam, Bucharest Branch, became the new depository bank of the Fund, replacing Bancpost S.A.

Subsequent Events

On 19 October the Fund published the convening notice for the GSM to take place on 23 November 2011. The agenda for the meeting includes the following:

 - 1 share = 1 vote without any restrictions
 - introducing electronic voting

The addendum will be effective beginning with 1 January 2012.
- The appointment of Deloitte Audit S.R.L. as the financial auditor of the Fund for the 2011 financial statements.
- The approval of the 2012 Budget of the Fund.

Analysis of the Activity of the Fund

Analysis of the Portfolio of the Fund

Net Asset Valuation

The key performance indicator of the Fund is its Net Asset Value (“NAV”). The Fund is required to publish a monthly net asset value per share in accordance with CNVM regulations no later than 15 calendar days after the reporting month end.

All of the NAVs are published on the Fund’s website at www.fondulproprietatea.ro, together with share price and discount information.

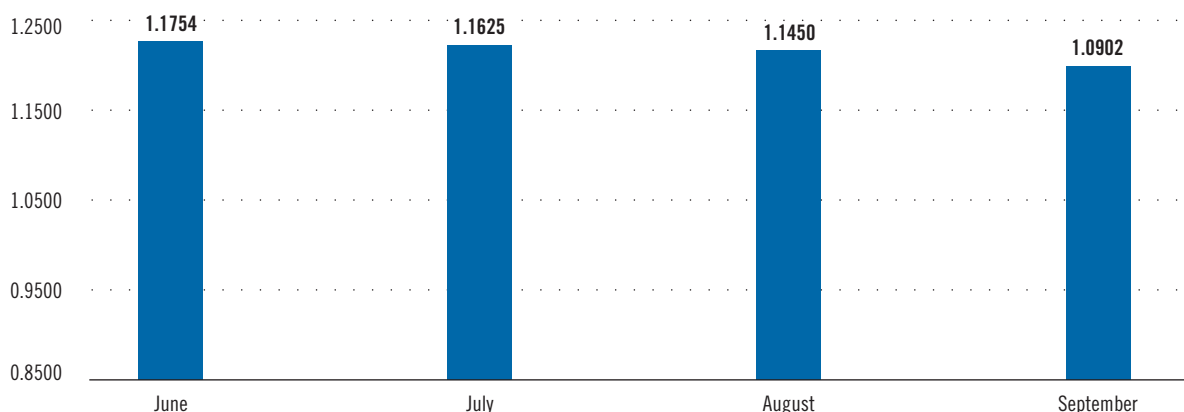

NAV Methodology

The Fund Manager has previously reported the significant beneficial changes to the NAV methodology which came into effect in late 2010. During November 2010, CNVM Regulation 4/2010 was amended by the Disposal of Measures no. 17 based on best international practice suitable for a closed-end listed fund.

In 2011 listed securities have been valued at closing market prices, while illiquid or unlisted securities are valued using either shareholders’ equity value per latest financial statements, proportionally with the stake held, or according to international valuation standards which permit fair valuation.

The following chart shows information on the monthly published NAVs per share in the period 30 June 2011 to 30 September 2011:

NAV/share (RON/share)

The Fund’s NAV per share decreased by 7.2% between 30 June 2011 and 30 September 2011 to RON 1.0902, principally because of the fall of the prices of listed securities, mainly OMV Petrom, following the general trend of capital markets.

Investment Strategy and Portfolio Analysis

The Fund’s investment objective is long-term capital appreciation, primarily through investments in Romanian equity and equity-linked securities. During the third quarter of the year, the percentage share which the Fund held in its investments ranged from less than 1% up to 100%.

At the beginning of the third quarter, the subscribed capital of the Fund was RON 13,778,392,208 and the paid-up capital was RON 13,756,955,963.

During the third quarter of 2011 there were some changes in the number of Fund's shares corresponding to paid-in share capital as follows:

- The Fund Manager issued the Decision 34/23 August 2011 and acknowledged that Romanian State consented to compensate the amount of RON 9,730,381 representing the amounts recovered from the forced execution of SC World Trade Center S.A. and from the increase of share capital of SC Plafar S.A. with the amount of RON 21,436,245 (representing the value of 21,436,245 shares of the Fund unpaid by Romanian State represented by the Ministry of Public Finance as of 22 August 2011).

As a result of the three decisions above, the subscribed capital of the Fund remained unchanged at RON 13,778,392,208 and the paid-up capital was reduced to RON 13,405,864,536.

There are ongoing litigations to recover the unpaid capital.

Financial Analysis

The unaudited Balance Sheet and Income Statement for the nine month period ended 30 September 2011 prepared in compliance with Romanian Accounting Regulations are included in full in Annex 3 to this Report.

This section provides a commentary on the principal elements of the Fund's financial position and results in the quarter ended 30 September 2011.

Balance Sheet

	31 December 2010 Audited RON million	30 June 2011 Unaudited RON million	30 September 2011 Unaudited RON million

Provisions	14.4	14.2	14.2
Shareholders' equity	12,139.2	12,789.5	11,328.4

Financial assets include the Fund's listed and unlisted equity investments. According to Romanian Accounting Regulations, both listed and unlisted equity investments are valued at cost (or their initial value) less any adjustments for impairment.

For listed investments, the impairment adjustment is any adverse difference between cost and closing price (an impairment adjustment is booked if closing price is lower than cost). For unlisted or illiquid listed equity investments, the impairment test compares the cost to the Fund's share of shareholders' equity as per the portfolio companies' latest available financial statements, and any adverse result is booked as impairment.

The value of financial assets decreased by RON 1,173.9 million in the third quarter of 2011. The decrease was mainly due to impairment adjustments for listed equity investments recorded during the quarter (principally for OMV Petrom). The acquisitions of listed equity investments in Romania had a positive impact.

The drop in **current assets** of RON 478.0 million was mainly related to the decrease of cash balances due to the acquisition of listed equity investments, the funding of buy-backs and to the payment of the 2010 dividend and related taxes.

Payables decreased by RON 190.8 million, mainly accounted for by the payment of the 2010 dividend and related taxes.

Revenues from financial assets represent dividend income earned from the Fund's portfolio companies. In Romania, companies typically declare dividends in the second quarter of the year, which explains the lack of dividend income in the third quarter of 2011.

The RON 3.7 million negative figure recorded in the third quarter of 2011, represents the reversal of an element of dividend accrual recorded in the second quarter of 2011.

In the third quarter of 2010, two of the portfolio companies, E.ON Gaz Romania and E.ON Gaz Distributie declared special dividends.

Interest income arises from deposits held with banks and from treasury bills. The significantly lower level of income in the third quarter of 2011 as compared to the same period in 2010 is a reflection of the lower level of interest yielding assets during 2011, due to the payment of dividends (for 2008 and 2009, starting in October 2010 and for 2010, starting in June 2011), and the acquisition of equity investments.

In 2011, **other income from current activity** principally includes penalties levied by the Fund for late payment of dividends and litigation expenses recovered (in the third quarter of 2011, these mainly related to the 2005 Transgaz dividend receivable).

Commissions and fees in the third quarter of 2011 mainly included CNVM's 0.1% per annum fee, calculated based on the Fund's NAV, amounting to RON 3.9 million and the depositary banks' fees of RON 0.4 million.

Other expenses from current activity can be analysed as follows:

	Quarter 3 2010	9-month period ended 30 September 2010	Quarter 3 2011	9-month period ended 30 September 2011
	Unaudited RON million	Unaudited RON million	Unaudited RON million	Unaudited RON million
FTIML investment management and administration fee	0.4	0.4	4.8	25.0
Salaries and similar expenses	1.2	3.8	0.2	0.7
Stamp duties for litigations	1.3	5.2	—	0.1
Success fee due to Fund's advisor & related VAT	9.2	9.2	—	—
Other expenses	2.8	5.6	1.1	3.5
Other expenses from current activity	14.9	24.2	6.1	29.3

These expenses decreased overall in the third quarter of 2011 by RON 8.8 million as compared to the same period in the previous year. This is mainly related to the recording in July 2010 of the success fee payable to the Fund's advisor for the selection of the fund manager (amounting to RON 7.4 million) and related irrecoverable VAT (amounting to RON 1.8 million).

The change in the nature of the other expenses in this category is largely attributable to the different administration structures in place before and after September 2010. Prior to this date, the Fund was self administered and had its own employees and infrastructure. Following the appointment of FTIML as sole administrator, the Fund no longer incurred these types of expenses, and instead incurred an administration fee.

The Fund Manager's investment management and administration agreement became effective on 29 September 2010. Until the listing of the Fund on 25 January 2011, the management fee of 0.379% and the administration fee of 0.1% per annum were based on the Fund's NAV, while afterwards the basis changed to the market capitalisation of the Fund.

The higher charge in the prior period for stamp duties was related to actual litigation activity principally related to the litigation with the Romanian State concerning the privatization of BCR.

FONDUL PROPRIETATEA S.A.**NOTES TO THE CONDENSED SEPARATE FINANCIAL STATEMENTS
FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2011
(all amounts are in RON unless otherwise stated)****9. Equity investments**

In accordance with Law 247/2005, as amended by Government Emergency Ordinance 209/2005, the Fund received, at its establishment on 28 December 2005, shares in 117 companies as contribution in kind from the Romanian State, as sole shareholder.

In June 2007, Government Emergency Ordinance 81/2007 came into force, in accordance with which:

- 32 new shareholdings were added to the Fund's portfolio as contribution in kind to its share capital (21 shareholdings in companies already in the portfolio and eleven shareholdings in companies not previously in the portfolio);
- 39 shareholdings were removed from the Fund's portfolio and transferred back to the State.

The valuation of the shares contributed by the Romanian State in December 2005 and June 2007 was performed in October 2007 by an independent evaluator (Finevex S.R.L. Constanta), who followed the valuation methodology set forth by Government Emergency Ordinance 81/2007. The value of the shareholdings, as determined by the evaluator, represents the cost of the equity investments.

Equity investments are available-for-sale financial assets and are carried at fair value, except for the investments whose fair value cannot be reliably measured, which are carried at cost less impairment.

Fair values at 30 September 2011 and 31 December 2010 were determined by reference to published bid price quotations on the stock exchange where shares are traded, where applicable. Equity investments quoted on the Bucharest Stock Exchange which are not traded in an active market, and unquoted securities, are carried at cost less impairment.

At 30 September 2011 and 31 December 2010, for equity investments carried at cost, no fair values could be determined using valuation techniques as the range of reasonable fair value estimates was significant and the probabilities of the various estimates could not be reasonably assessed.

The movement in the carrying amounts of equity investments is as follows:

	Equity investments at fair value	Equity investments at cost	Total equity investments
31 December 2010	4,846,321,942	6,015,235,159	10,861,557,101

9. Equity investments (continued)

During the first 9 months of 2011, the Fund increased its exposure to Alro S.A., Azomures S.A., BRD Groupe Societe Generale and Conpet S.A. The Fund also added three new holdings to its portfolio: Banca Transilvania S.A., Erste Group Bank AG and Raiffeisen Bank International AG.

During the same period the Fund sold its entire holdings in Marlin S.A., Familial Restaurant S.A. and Laromet S.A., through public auctions, at prices exceeding carrying values and its entire holding in Vitacom S.A. and part of its holding in Oil Terminal S.A. on the open market.

The High Court of Cassation and Justice rejected irrevocably the request of the Fund to be registered as a shareholder of Electromecanica Ploiesti S.A.. Following this irrevocable decision, the Fund issued a decision stating that the Romanian State represented by the Ministry of Public Finance has not fully paid the share capital of the Fund and consequently, the number of shares correspondent to the holding in Electromecanica Ploiesti S.A. (21,436,245 Fund's shares) owned by Romanian State were derecognised from Fund's portfolio.

In November 2010, the General Shareholders Meetings of Electrica Furnizare Transilvania Nord S.A., Electrica Furnizare Muntenia Nord SA and Electrica Furnizare Transilvania Sud S.A. approved in principle the merger of the three companies and delegated the responsibility for the merger project planning to the companies' Boards of Directors. The registration of the new company, Electrica Furnizare, was completed with the Trade Register on 22 July 2011.

The Fund's General Shareholders Meeting in September 2010 approved the distribution of a gross dividend of RON 0.0816 per share, payable to shareholders with effect from October 2010 which represented the distributable profits of both 2008 and 2009. As of 30 September 2011, shareholders had collected 99% of all dividends whose distribution started before 31 December 2010 (31 December 2010: 98%).

In April 2011, the Fund's General Shareholders Meeting approved the distribution of a gross dividend of RON 0.03141 per share, payable to shareholders with effect from 30 June 2011, which represented the distributable profits of 2010. As at 30 September 2011, shareholders had collected 97 % of this dividend.

The commission due to National Securities Commission ("CNVM") arose following the Fund's registration with this authority in August 2010.

12. Shareholders' equity**(a) Share capital**

As of 30 September 2011, the authorised and issued share capital comprised 13,778,392,208 ordinary shares at a nominal value of RON 1 per share out of which 372,527,672 shares were unpaid. Unpaid shares resulted from the cancellation of the previously recorded contributions to the Fund of the Romanian State represented by the Ministry of Public Finance, through the decisions of the Fund Manager, as follows:

- the Ministry of Public Finance failed to fulfil the obligation to transfer certain stakes in Electromecanica Ploiesti S.A. and Uzina Mecanica Bucuresti S.A. according with the provisions of Emergency Ordinance no.81/2007, and in Nuclearelectrica S.A. according with the provisions of Law no.247/2005;
- the High Court of Cassation and Justice irrevocably rejected in May 2011 the request of the Fund to be registered as a shareholder of Electromecanica Ploiesti SA (see note 13);

12. Shareholders' equity (continued)

- In the litigations with Uzina Mecanica Bucharest S.A. and Nuclearelectrica S.A., the first court ruled against the Fund, rejecting the request of the Fund to be registered as a shareholder of Uzina Mecanica Bucharest S.A. and the transfer to the Fund of the stake due in Nuclearelectrica S.A. (see note 13).

The shares unpaid did not entitle their holder to vote or to receive dividends.

At 31 December 2010, the authorised and issued share capital comprised 13,778,392,208 ordinary shares at a nominal value of RON 1 per share, the subscribed share capital of the Fund being recorded as fully paid.

By 30 September 2011, the State's share in Fund's issued capital decreased to 7.58%, out of which 2.70% was unpaid (31 December 2010: 38.88%).

(b) Fair value reserves on available-for-sale financial assets

The fair value reserves of RON 1,172,189,714 at 30 September 2011 (31 December 2010: RON 1,951,138,494) comprise the cumulative net change in the fair value of available-for-sale financial assets until the investments are derecognised or impaired.

(c) Treasury shares

The Fund's General Shareholders Meeting in September 2010 approved a buy-back program of up to 10% of the Fund's share capital at prices ranging between 0.2 - 1.5 RON, which is valid until March 2012. The acquired shares can be cancelled and the share capital reduced following shareholders' approval.

The buy-back programme started in May 2011 and by 30 September 2011 the Fund had acquired 240,304,801 shares at a total acquisition cost of RON 120,268,583. None of these shares have been cancelled. On 30 September 2011, the Fund completed the current buy-back programme.

(d) Dividends

The Fund's General Shareholders Meeting approved in April 2011 the distribution of a gross dividend of RON 0.03141 per share, in relation to 2010 statutory profits.

FONDUL PROPRIETATEA S.A.**NOTES TO THE CONDENSED SEPARATE FINANCIAL STATEMENTS
FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2011
(all amounts are in RON unless otherwise stated)****13. Contingencies**

As at 30 September 2011 the Fund was involved in certain litigations, either as defendant or claimant. According to the requirements of the IAS 37 “Provisions, Contingent Liabilities and Contingent Assets” the Fund discloses in the financial statements only those which may have significant effects on the Fund’s financial position or profitability. The most important litigations were as follows:

1. The Fund is involved in several litigations regarding delay penalties requested from companies which have not yet paid dividends to the Fund for the year 2005 (some of the dividends have since been paid to the Fund pursuant to the Fund winning the law suits). Such litigations are yet to be resolved. During first nine months of 2011 the most common practice of the Romanian courts was to accept the Fund’s claims.

The claims filed by the Fund are in compliance with the provisions of Law 31/1990 as republished and further amended and these amounts should be due and paid to the Fund. These amounts were only be recognised as revenues when their recoverability becomes highly probable (the Court rules irrevocably in Fund’s favour).

2. As at 30 September 2011 the Fund is in dispute with Romarm S.A. which did not transfer certain stakes in Uzina Mecanica Bucuresti S.A. and Electromecanica Ploiesti S.A. (both subsidiaries of Romarm S.A.). The provisions of Article 1 paragraph 2 Title II of Emergency Ordinance nr.81/2007 state that “the transfer of ownership of assets under paragraph 1 is made as at the date of entry into force of this Emergency Ordinance, the directors of companies, national societies and national companies being obliged to update their own records of shareholders and shares. In case the records of shareholders of national societies and national companies are kept by Central Depository or by registry companies, the update of the records is done by Central Depository and registry companies, on request of the Fund”.

Art. 1, paragraph 1, establishes that AVAS will transfer to the Fund a total of 1,002,301 shares of Electromecanica S.A. Ploiesti (point 2.23) and a total of 2,951,053 shares of Uzina Mecanica Bucuresti S.A. (point 2.24).

Electromecanica Ploiesti S.A. and Uzina Mecanica Bucuresti S.A. are subsidiaries of Romarm, a company owned 100% by AVAS at the effective date of the Ordinance 81/2007 and currently by the Ministry of Economy, Commerce and Business Environment. Considering the fact that the text of the Ordinance mentioned that these stakes must be transferred from AVAS and not from Romarm, the companies have refused to record the Fund as shareholder despite several requests to this effect.

Furthermore, the Fund requested AVAS, as Romarm’s single shareholder, to instruct its representatives at the general shareholders meetings of Uzina Mecanica Bucuresti S.A. and Electromecanica Ploiesti S.A. to mandate their boards of directors to record the Fund’s shareholding in both the shareholders register and the Trade Register Office.

FONDUL PROPRIETATEA S.A.**NOTES TO THE CONDENSED SEPARATE FINANCIAL STATEMENTS
FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2011
(all amounts are in RON unless otherwise stated)****13. Contingencies (continued)**

Regarding the dispute on the Fund's stake in Electromecanica Ploiesti S.A., the High Court of Cassation and Justice rejected irrevocably the request of the Fund to be registered as a shareholder of Electromecanica Ploiesti S.A.. Following this irrevocable decision, the Fund issued a decision stating that the Romanian State represented by the Ministry of Public Finance has not fully paid the share capital of the Fund and consequently, the number of shares correspondent to the holding in Electromecanica Ploiesti S.A. (21,436,245 Fund's shares) owned by Romanian State were blocked.

The other legal action, the Fund has at the High Court of Cassation and Justice, is that against Uzina Mecanica Bucuresti S.A. For safety reasons, given that the decision issued by the first court in this case is enforceable, the Fund has blocked a total of 20,024,890 shares, the amount of RON 20,024,890 being mentioned in the valuation report issued in October 2007 by an independent evaluator (Finevex S.R.L. Constanta) for the shares presumed to be owned by the Fund in Uzina Mecanica Bucuresti. The Fund considered that in fact the Ministry of Public Finance has not contributed to the share capital of the Fund with this amount. After High Court of Cassation and Justice will take a decision regarding this case the Fund will propose the shareholders measures in order to solve the problem of unpaid share capital, if it is the case.

3. There are currently two court litigations involving the Fund and Nuclearelectrica.

In the first file the Fund has sued Nuclearelectrica and the Ministry of Economy and Commerce (now the Ministry of Economy, Trade and Business Environment) and asked the court to record the transfer of a total of 20,077,653 shares from the Ministry portfolio to the Fund portfolio in order to update the initial stake of the Fund in Nuclearelectrica, taking into account the share capital increases that took place between 1 February 2006 and 13 November 2007. The litigation was solved at the first stage by the Bucharest Court with the Court ruling against the Fund. The Fund has appealed the decision of the Court.

For safety reasons, given that the decision issued by the first court in this case is enforceable, the Fund has blocked a total of 340,796,918 shares, the amount of RON 340,796,918 being mentioned in the valuation report issued in October 2007 by an independent evaluator (Finevex S.R.L. Constanta) for the shares presumed to be owned by the Fund in Nuclearelectrica. The Fund considered that in fact the Ministry of Public Finance has not contributed to the share capital of the Fund with this amount. After the courts will issue an irrevocable decision regarding this case the Fund will propose the shareholders measures in order to solve the problem of unpaid share capital, if it is the case.

In the second file, the Fund has requested the partial cancellation of the Resolution of Nuclearelectrica's Extraordinary General Shareholders' Meeting no.14 of 26 September 2006, whereby the share capital was increased by the amount of RON 363,368,250, representing the equivalent amount of 315 tonnes heavy water, which was transferred from state reserves to Nuclearelectrica free of charge; and the allocation of an additional number of 7,267,365 new shares issued by Nuclearelectrica following the share capital increase. On 25 February 2010, the Bucharest County Court rejected the claim filed by the Fund stating that the Resolution of Nuclearelectrica Shareholders' Extraordinary General Assembly dated 26 September 2006 was made in full compliance with the provisions of Law no. 297/2006, which is derogatory from the common provisions of the Companies Law.

FONDUL PROPRIETATEA S.A.**NOTES TO THE CONDENSED SEPARATE FINANCIAL STATEMENTS
FOR THE NINE-MONTH PERIOD ENDED 30 SEPTEMBER 2011
(all amounts are in RON unless otherwise stated)****13. Contingencies (continued)**

Also, the Court interpreted the relevant legal provisions as regulating a transfer under the title of contribution by the Romanian State and not of a subsidy, entitling solely this shareholder to the shares issued as a result of Nuclearelectrica's share capital increase. The Court dismissed the Fund's claims relating to the lack of a valuation report, stating that such a report was not required, as it was a monetary contribution, and that a legal valuation had already been performed.

In the second file, on 10 May 2010, the Fund filed an appeal against the above decision of the Bucharest County Court and the appeal was rejected on 24 January 2011. The Fund filed the second appeal against of this decision. The High Court of Cassation and Justice ruled irrevocably against the Fund on 25 October 2011.

As at 30 September 2011 and as at 31 December 2010 the Fund owns 9.72% of the share capital of the Nuclearelectrica, as recorded at the Trade Register Office.

4. On the role of the courts there are many litigations started by the Fund against the merger plans for creating Hidroenergetica and Electra; in many of these cases the courts have decided to suspend the merger. The merger process and the creation of Electra and Hidroenergetica are currently blocked. In October 2011, the Romanian Government repealed its previous decision regarding the reorganization of the electricity generation sector for creating Electra and Hidroenergetica and the Government approved as an alternative plan for the restructuring of the electricity generation sector, the creation of Complexul Energetic Oltenia by merging Complexul Energetic Turceni, Complexul Energetic Rovinari and Complexul Energetic Craiova with Societatea Nationala a Lignitului Oltenia.
5. Some minority shareholders of the Fund have filed claims against the Fund with the Court requesting the cancellation of certain resolutions of the General Shareholders Meeting.

Other contingencies of the Fund included:

1. The Fund shall receive the following amounts from the Romanian State:
 - a the amount resulted from the trading on the Romanian or foreign stock exchange markets of the first 3% of Romtelecom S.A. shares;
 - b 20% of the amounts resulting from the privatization of Romtelecom S.A.;
 - c 9.9% of the amounts resulting from the privatisation of C.E.C. S.A.

These amounts shall be recorded as an increase in share capital by the significant shareholder once they are collected.

2. The receivables from World Trade Center Bucharest S.A.:

Section II, Article 4 of G.E.O. nr. 81/2007 stipulates the transfer from AVAS to the Fund of receivables from World Trade Center Bucharest S.A. amounting to USD 68,814,198 (including the original principal and related interest and penalties) on 29 June 2007.

On 1 October 2007 the reception minute no. 633 was concluded between AVAS and the Fund based on which all documents related to the receivables due from World Trade Center Bucharest S.A. were transferred to the Fund.

13. Contingencies (continued)

On 4 October 2007, the Fund notified World Trade Center Bucharest S.A. regarding the cession of the receivables. Meanwhile, the transfer was registered with the Electronic Archive for Pledges.

In present World Trade Center Bucharest S.A. is the object of insolvency procedure, the next hearing being set for 30 November 2011.

In 2008, World Trade Center Bucharest S.A. paid USD 200,000 to the Fund, in 2009 USD 200,000 and in 2010 USD 110,130.69, EUR 148,700.76, RON 8,724,887.92. No such payments have been made to the Fund during the nine months period ended 30 September 2011. In accordance with G.E.O. 81/2007, these cash receipts reduced the balance of the receivables in respect of equity contributions.

Given the uncertainties regarding their recoverability, the World Trade Center Bucharest S.A. receivables were recognised on receipt basis in the Fund's financial statements.
